ABSTRACT

This paper deals with the reason for growing drug addiction, its effects on the family and also the society, an individual's contribution to eradicate the dangerous curse of this habituation and to play substantial role in building happy nation. In fashionable Asian nation the young generation's fashion is changed. Several people have the misperception that an addiction of the drug or liquor may be a sign of contemporary life. Abundant of young generation got habitual with this unhealthy addiction most that it's created up their minds to lead their lives while not drug or liquor is sort of impossible. However Addiction of drug or liquor has been thus dangerous that caught the individuals in its clutch which doesn't let lose the hold of it. but most of the individuals are indifferent to look at this addiction seriously instead they see through their open eyes consumption of drug while not coming back forward to counsel or create efforts to eradicate this kind of unhealthy habit of taking drug. The individuals should take initiative to create efforts to eradicate this addiction of drug, liquor and create commitment to fulfill the debt towards society and nation. The individuals have to be compelled to suppose in alternative way. They must try and stop the assembly of the drug and liquor that is that the root reason for growing habit and conjointly to go to the house of the drug alcoholic individuals frequently to ignite their minds to suppose a lot of concerning their family rather than thinking about own.

1. Introduction

Addiction of drug is certainly considered one among many troubles that current society is dealing with today. Intoxication precipitated because of taking drug could make humans neglect about the experience of existence, social and ethical values. Overdose of the drug reasons bodily in addition to mental harm. The common use of drug like Cocaine, heroin, hashish, cannabis, steroids, ecstasy etc. is known as the dependency of drug. Stimulants, depressants, opium associated painkillers, hallucinogens, alcohol, sedatives, narcotics, nicotine etc. are extraordinary sorts of tablets. Drug addict character can't stay without drug and after taking drug it makes existence critical. In India the abuse of drug is increased. Consumption of drug in India is substantial. Most of the younger girls, boys, vintage women and men are addict with some of drug substances. This growing dependency of drug is making the situation worse in India. It is substantial pressing want to brood over it, sense the social experience and get inculcated ethical and moral values. It turns into the obligation of these individuals who are a long way farfar from this worse dependency of drug to study those addict humans as needy and assist those needy know-how the precise scenario and solution. The large step need to be taken and make the authorities apprehend the top notch price of preventing the manufacturing of drug. Production of drug is root reason of the boom in dependency.

Different sorts of tablets have extraordinary results; off path a number of them are similar. The results like depression, anxiety, hallucination, bodily weakness, mentally overconfidence, insomnia, panic, laughter, euphoria, depersonalization, paranoia, lack of appetite, dihydrocodeine, feeling drowsy, calm, untroubled, pleasure, even indifference to ache worry, anxiety, sweating, diarrhea, fever, cramps,

irritability, muscle weakness, weight loss, excitement, negative concentration, growth withinside the coronary heart fee etc. The maximum risky results are direct impact on lungs, kidney, blood vessels etc. These are the bodily and intellectual results of the medication. The social results of the medication are a lot risky. It destroyed a number of the families. It destroyed a huge quantity of younger. It may also ruin the ethical and moral values. It reasons the troubles withinside the society, and pollutes the natural ecosystem of the society. The drivers pressure automobiles rashly after ingesting alcohols and this turn out to be the basis reason of the accidents. Many of the harmless humans have become sufferers because of rash riding via way of means of drunkard drivers. It turns into considerable purpose to guide the United States toward degradation, lack of faith, lack of social values and non-secular barrenness in addition to monetary loss. Therefore, it creates large hurdles withinside the manner of the improvement of the United States. However, extraordinary sorts of humans have extraordinary results of this drug.

2. Causes of Addiction of Drugs

Adolescents are vulnerable a part of the society who will simply get confirmed with drugs, significantly the scholars within the high faculties and colleges. Most times habit of drug is caught thanks to the corporate of the addict individuals if the adamant spirit of drug free man lessens. to stay the favour or the words of the friend the action of taking drug is taken stupidly that they're getting into the globe of drug. once the people feel tension and burden they fight drug so as to unleash them. Some people simply for having completely different life vogue consume drug. Some people just for the enjoyment of life take drug. Several of kids get confirmed with drug unwittingly and innocently, and once although they are

available across the hazards of it they fail to go away this habit. Some young person solely to do one thing new, difficult and sporting begin taking drug. Initially consumed drug was only for fun and pleasure however later it becomes compulsion and want for them. However, one among the chief causes of growing addiction of drug is that the majority of the individuals are indifferent towards creating efforts to eradicate addiction of drug from the roots. Most of the people see through their open eyes however addict people consume drug, some sell drug, and a few turn out drug however they don't raise their voice against it instead they allow them to consume. The addict people force the addiction people to require at first touch of drug instead taking them far from this habit. It's additionally seen that those people that step forward for the notice of disadvantages from the drug, they themselves are addict people but they don't attempt to avoid drug, they solely build awareness as a neighborhood of their official duty and not as their ethical duty. This kind of angle from most of the individuals has become main cause for growing habit of action.

3. Role of the People, Agencies in Solving Problems

This developing dependency of drugs will have the manipulate over it if the right steps are taken concerning it. First of all of the human beings should apprehend their position to resolve this form of problem. The human beings ought to make dedication toward country building. The human beings should meet the ones addict human beings to extrude their minds and try and make conscious them their loss. Only making efforts to extrude the legal guidelines and their strict enforcement at the part of the authorities is not enough as a substitute the authorities ought to forestall the manufacturing with the aid of using cancelling the license of the alcohol manufacturing company. However, Indian authorities is taking the stairs toward improving the extent of punishment for breaching the legal guidelines of ban on drugs, alcohol. The NGOs are coming ahead to shrink this threat of drug with the aid of using counseling and arranging the programmes in its consciousness. Doctors ought to come ahead to shrink this threat. They have to set up the programmes withinside the towns and rural areas. Media is doing accurate activity with the aid of using displaying at the TV and with the aid of using publishing commercials withinside the newspapers the unfavourable outcomes of drugs. The industries of the cigarette, materials contained tobacco put up the risks of the medication at the packet, however handiest printing of it at the packet isn't enough as a substitute they have to forestall the manufacturing and as a result shop the lives of many. The programme entitled "Satyamev Jayate" of Amir Khan that is

primarily based totally on curtailing the developing alcoholism in India. In this programme many famous human beings have come, they confessed that they have been addict of alcohol, and that they have shared with the target market that how this dependency spoiled their lives, and after leaving this dependency how they're main their lives happily. Many of the game persons, Hollywood actors have overtly confessed approximately their dependency and left it and that they discovered drastic extrade of their lives. Impact of the lives of celebrities upon the younger is immense; consequently they ought to come ahead to address this problem. The Government ought to beautify the strictness of the punishment to the drunkard drivers, in order that they may by no means even consider the alcohol.

Role of the dad and mom, own circle of relatives and the lecturers is likewise widespread in controlling developing drug dependency. Parents ought to speak with their kids in this count often and try and understand the entire time table in their kids outdoor the residence without making them understand that they're their dad and mom watch. Teacher can play a totally widespread position in it. Teacher ought to speak as a minimum 5 to 10 mins in every elegance on unfavourable effects of the drug, and approximately the social obligation of the students. Family participants ought to speak with the kids approximately this count. So all manner counseling and interest will make minds of the kids, old and young adamant and in place of touching the drug they may take part in consciousness marketing campaign on dependency of drug.

4. Conclusion

Growing habit of the drug has become hazardous and destructive for the country. It caused mostly the loss of faith, degradation, loss of ethical values and religious barrenness along with physical and mental weakness. It mostly destroyed the life of many people, families, the feeling of fraternity and social sense. The main cause of growing addiction of drug is indifference of the people to look and make efforts seriously to eradicate the problem of the drug addiction. People look with open eyes how illegally the drug is produced, how illegally drug is consumed and how the proportion of taking drug is increasing day by day. But most of the people don't take strong action against it. These kinds of adverse effects of the drug on the people immensely need to take strong action against the production of the drug and need to tackle the problem by eradicating it from root by way of making different efforts by the people from different section of society. For the development of the nation it is indispensable to eradicate the addiction of drug from the root.
